

Ajuntament de Valldemossa

GREETING FROM THE MAYOR

On behalf of Valldemossa I welcome,

You have come to live in a small town in the mountains of Mallorca that despite the proximity to Palma wants to maintain its discreet and quiet character.

We want to help you to find a hole and your space between us, that you identify yourself with our culture and language, with our values, with the traditions, with the privileged environment we enjoy, and that you may know us enough to seize the opportunities that this community offers to who wants to be our neighbor.

We want you to share fellowship and festivities, efforts and concerns; and to contribute your way of seeing the world.

From Valldemossa also hundreds of people have to left to live in other places, other countries and continents where they adapted to be neighbors as the others. For many of them this vital experience has been a positive experience and it enabled them to assess both what they left behind as this new environment that welcomed them.

We want this guide provide you the way to solve the needs that you will have, when you have to drive with your car through the old center, when you go to the doctor, to enroll a child in our school, to register in sports and cultural activities, when you have to pay municipal taxes, to ask for help from social services, to participate in the cultural offer, to call the police, to participate in any association, ...

It is an alive guide to renew periodically. If you find any content that you seem necessary to include, or if you detect an error, do not hesitate to report it. If you are in doubt, come or contact the Town Hall, it is your home.

Receive our respect and we also hope yours.

Jaume Vila Mulet,

The Mayor of Valldemossa

Ajuntament de Valldemossa

Geographical Situation

The town of Valldemossa is located to the west of the Mallorca island, located in the Serra de Tramontana, and right near the Puig des Teix. Bordered to the north with Deià, east with Bunyola, on the southeastern tip with Palma, south with Esporles, with Banyalbufar on the southwest and with the Mediterranean Sea on the northwest. It is formed by Valldemossa and the Port of Valldemossa, in addition by the urbanizations of Son Maixella , George Sand and Shagril·la.

It occupies an area of 44.51 km².

It has a population of over 2,000 inhabitants

Origin

The **prehistory** of the toponym is documented by over twenty archaeological sites, the most prominent is the Son Matge one. In this rock shelter, various levels were found: vestiges of an occupation located between 5000 BC and 2700 B.C. formed by a core of flint and Myotragus remains. Besides Talayotics and Pre-Talayotics remains.

In the **Islamic era**, the current term of Valldemossa was one part of the *juz'*, of Bunyula-Musu. In the *Llibre del Repartiment* (1232) we can find the cession to Nunó Sanç, Earl of the Rossellón, of the Valldemossa portion within which the lands of Deia were included.

Valldemossa is rich in springs and is surrounded by an abundant and lush vegetation (millenary olive trees, oaks and almond trees, etc.), so it offers the visitor the feeling of calm and secular quiet. Have an special charm its narrow, steep streets. In Town you will find the birthplace of the most revered holy in Mallorca, Catalina Thomàs, who was born in Valldemossa in 1531 and died considered as a saint in Palma in 1574. Also noteworthy for its location the parish church, originally from the 13th century, although extensively renovated in the 18th century. The main attraction of Valldemossa has been and is, without a doubt, the Carthusian monastery.

Here you can visit the rooms in which the pioneers of French romanticism in the 19th century lived, the famous Polish composer Frédéric Chopin and his partner, writer Aurore Dupin, better known by his alias, George Sand. Traces of his brief (December 1838 - February 1839), although intense, stay has led since then a ceaseless pilgrimage. Another attraction, also important is the monastery of Miramar. A place that belonged to the La Real Monastery bought the 1276 King Jaume II where Ramón Llull, our theologian, mystic, philosopher and writer universal laid the foundations of a school for missionaries. In the late fifteenth century Nicolau Calafat, who was born in Valldemossa, founded in Miramar,

Ajuntament de Valldemossa

together with Bartomeu Caldentei, the first printing of Mallorca, where the first incunabula were created.

In 1872 Miramar was acquired by the Archduke Luis Salvador.

Economy

Valldemossa lives, currently, from the service sector and mainly from the tourism that visits the town and the surroundings, thanks for the attractions they found here. Its rural past is now history.

Etymology of the toponym

El origen del topónimo se explica por la influencia del dominio islámico en Mallorca, durante 300 años, después de la invasión de la península Ibérica en el 711. Es una grafía aglutinada de *vall de Mussa* (nombre personal árabe). Hallamos documentado el término *Valldemuça* en el año 1395 y el de *Valldemussa* en el año 1468.

The origin of the name is explained by the influence of the Islamic dominion in Mallorca, during 300 years, after the invasion of the Iberian peninsula in 711. It is a bonded spelling of *vall de Mussa* (Arabic personal name). We find the term *Valldemuça* documented in the year 1395 and *Valldemussa* in the year 1468.

Catalan is the language of the Balearic Islands and is the official language together with the Spanish.

It is also the language of Catalonia, Valencia, Andorra, part of Aragon, the city of Alghero (Sardinia), of the Northern Catalonia (France) and of El Carxe (Murcia).

It is spoken by over 10 million people and understood by a good number of people. It is the 14th most spoken language of the European Union, an one of the 6000 languages spoken in the world, Catalan is among the 100 most spoken languages.

It is very important to learn the local language during the period of residence in Valldemossa as this opens many doors when you are searching for a work, studying or in the same integration. Anyway, the two co-official languages are valid in the relationship with the public administration.

It's where the government and administration of the town are. There is where you may find the answer for the needs that will arise. In addition to the Town Council there are three territorial administrations affecting citizenship: The insular government (Consell de Mallorca), autonomic (Govern de les Illes Balears) and the Spanish State.

Outside the old town there is an ORA zone in order to set the maximum parking time in the streets and parkings of Valldemossa, getting a vehicle rotation to optimize the use of the scarce parking places conditioned to the payment of a public price or by a rate, when a non-resident person tries to get the ORA card or for vehicles that do not pay road tax in the municipality.

Waste collection

Valldemossa City Council has made a clear commitment to improving the management of municipal waste. The town wants to increase the rates of reduction, reuse and separate collection to become a more environmentally and economically sustainable municipality.

For this reason, was adopted in plenary November 2014 a new rate of waste based on the principle "who pollutes pay", the households and the businesses that separate their waste properly will pay less than those who do not.

This measurement is carried to term by ITR (Technical Inspection of Waste), a voluntary program discount of the tax of waste. Homes and businesses can register by submitting an application.

Since the waste collection system is in a process of continuous improvement and change, we ask you to pass to the City Hall to inform you or visit municipal waste paragraph of the municipal web. There will also find the application for the discount of the tax of waste.
